OBJECTIVE

Enthusiastic software developer with a strong programming foundation, eager to apply skills in creating captivating web and desktop applications through an entry-level IT position.

PROJECTS

Code Editor | ReactJS, HTML5, CSS, Javascript ⧉Link   July 2023
- Code Editor is a highly interactive and web-based code editor developed using ReactJS.
- It serves as a versatile platform for developers to write, test, and experiment with HTML, CSS, and JavaScript code in real-time.
- Its seamless operation allows developers to see immediate results and refine their web projects with ease.

Admin UI | ReactJS, HTML5, CSS, Javascript ⧉Link   Jan 2023
- I created an interactive web-based data table with standout column titles, dynamic data filtering, in-memory editing, and robust pagination.
- Users can select and delete multiple rows efficiently, and a select/deselect all shortcut enhances usability.
- This project demonstrates my front-end development skills and data manipulation expertise, resulting in a responsive and user-friendly web application.

Airline Reservation System | Java, Java Swing, MySQL ⧉Link   Dec 2022
- Facilitates user input of departure and arrival points, enabling seamless retrieval of available flight options.
- The existing system is designed to assist passengers in searching for flights between two destinations, whether they are domestic or international.
- Supports a wide range of flight types, including both domestic and international, ensuring a comprehensive search experience for travelers.

TECHNICAL SKILLS

- **Languages**: Java, JavaScript, MySQL, ReactJS.
- **Developer tools**: VS Code, Figma, Intellij Idea Ultimate
- **Technologies/Frameworks**: Github, Git

TRAINING

Software Developer Trainee, AccioJob   Aug 2022-Present
- Acquired expertise in web development technologies including HTML, CSS, Bootstrap, JavaScript, Material-UI, and React.js, through a well-rounded curriculum.

EDUCATION

School Of Management Sciences Lucknow   Aug 2019 – July 2023
Bachelor of Technology, Computer Science Engineering – CGPA – 7.8   *Lucknow, Uttar Pradesh*

HOBBIES

- Like to play Cricket
- To explore new Technologies.
- Like to travel.
- Singing and Listening Music

EXTRA CURRICULAR

- Achieved **100+ LeetCode DSA problem** solutions and demonstrated strong problem-solving skills by solving questions on **Geeksforgeeks** and **InterviewBit**.
- Participated in various Cultural Programs and Coding Competitions.
- Coordinator of **Code-E-Thon** at **Inguinity 2k22 event.**

CERTIFICATIONS

- HTML/CSS & Bootstrap – Edureka ⧉Link
- Javascript – Edureka ⧉Link
- Java – Udemy
- **4 Stars** in C++ & SQL – Hackerrank
- SQL
- Python – Udemy
